1.12	December 2, 2004	Added information to *Babylon is Jerusalem?*. This is the first version available for use with the freee-Sword Bible study software. Corrected Greek transliteration error where initial smooth breathing mark was not being removed.
1.11	November 23, 2004	Corrected problem in SwordSearcher and Libronix PBB versions where verse ranges only included the first verse in the range.
1.10	November 10, 2004	Added topic milestone markers to the *Topic Index* so that topic index entries operate in the active index of the Libronix PBB version.
1.9	November 8, 2004	Corrected heading levels in *Topic Index* and *Scripture Index* which were causing problems for the table of contents within the Libronix PBB version.
1.8	October 31, 2004	Corrected minor formatting inconsistencies concerning citations.

1.7	October 30, 2004	The HTML version and the Libronix Personal Book version now generate individual files for every section in the commentary. This greatly reduces individual page size leading to improved performance loading a new page.
1.6	October 26, 2004	First version available for use with the Sword Searcher Bible study program.
1.5	October 15, 2004	Modifications to improve operation of the Libronix PBB version of the commentary: (1) Section titles at the top of each page no longer use H1 formatting codes which confused Libronix's notion of levels in the table of contents; (2) Replaced navigation buttons which appear in each section with text links to work around what appears to be a problem with linked images within the Libronix PBB compiler. Typographical corrections, including corrections to numerous Bible addresses with incorrect chapter or verse numbers.
1.4	October 12, 2004	Moved *Acknowledgments*, *Special Permission*, *Copyright*, *About the Author*, and *Revision History* under a new *Preface* section at the beginning of the table of contents. Modified the *Topic Index* for Libronix PBB versions to limit the number of entries at each topic. (The full index is available on the web at www.SpiritAndTruth.org/id/revc.htm?Topic_Index.)
1.3	October 8, 2004	Greek transliteration now includes macrons to differentiate *eta* from *epsilon* and *omega* from *omicron*. Hebrew transliteration now differentiates between various vowels. Collapsed abbreviated Table of Contents. Added citation by Svigel to *Revelation 3:14*. Expanded *Additional Resources on the Rapture*. Added a citation to the section titled *Book of Mormon* which discusses DNA evidence against the idea that Native Americans are descendants of a lost tribe of Israel. Fixed citations in *Revelation 9:7*. Expanded commentary on *Revelation 1:7*. Typographical corrections. This is the first version available in Libronix PBB format for use with the Libronix Bible Study program.
