

Verse Commentary Finder

EXPLANATION: This page allows you to go directly to a comment on a specific Bible verse. Please note that while commentary is available for **every New Testament passage**, **not every Old Testament passage** currently has commentary. The Old Testament commentary is an ongoing project and is being added to progressively.

HINT: If you are on an Iphone, you can load this page directly on your home screen and it will function much like an App. Here are the simple instructions:

- (1) Open **Verse Commentary Finder** in **Safari** (<https://www.preceptaustin.org/verse-commentary-finder>)
- (2) Tap the **Share icon** (square with an arrow pointing up, usually at the bottom of the screen).
- (3) Scroll down through the list of options — you should see **"Add to Home Screen"** clearly listed.
- (4) Tap it, confirm, and it automatically adds the "V" icon to your homepage.
